Who We Are

Our Mission

The California Chronic Care Coalition (CCCC) is a unique alliance of more than 30 leading consumer health organizations and provider groups that promote the collaborative work of policy makers, industry leaders, providers, and consumers to improve the health of Californians with chronic conditions. We envision a system of care that is accessible, affordable, and of a high-quality that emphasizes prevention, coordinated care, and the patient's wellness and longevity. Features of the CCCC include the early diagnosis of chronic conditions, access to effective and appropriate treatment and improved chronic care management.
